

Your friends book

Ask your friends to fill out a page for you and collect all your friend pages in your friend book.

1

Simply print out many friend pages and cut them in the middle with scissors. Then distribute them to your friends.

They can fill out the front - on the back they can draw you a picture.

2

Fold your friends book cover in the middle. Collect your friends' pages in it and staple them together with a stapler.

Your friends book is ready! Have fun with it!
